## 1919 ANNUAL REPORTS OF BLAIRMORE TOWN COUNCIL

The Mayor and Various Standing Committees  
Report on Town Business—Indebtedness  
Reduced by \$9,745.60.

REPORT OF MAYOR AND CHAIRMAN  
OF FINANCE COMMITTEE, OCT.  
31st 1919

I have pleasure in stating that the financial position of the town shows a distinct improvement and this we hope to maintain.

Unpaid Vouchers at Dec.

31, 1918, amounted to \$8226.69

Unpaid Vouchers at Oct.

31, 1919, amounted to \$2511.85

Arrears of Debentures Dec.

31, 1918, amounted to \$7192.20

Arrears of Debentures p'd

Oct. 31, 1919, amounted to \$5081.42

1919 Debentures paid to

Oct. 31, 1919, amounted to \$392.40

Liability to bank reduced

at Oct. 31, amounted to \$1000.00

Cutting out the \$392.40 the

above shows a total reduction of old liabilities during the year of \$9,745.60 besides having taken care of current accounts, including additional influenza items and heavy costs entailed by the fire in June last.

We have \$31400.00 of arrears of taxes that these are being collected as quickly as possible and a big reduction may be confidently looked for after August next, when the new tax recovery act comes into operation.

The Provincial Government are saddling the towns with further liabilities and difficulties by the proposition of the supplementary revenue tax and half the burden of the widowed mothers allowance act, under which the town is already paying ten dollars per month. Altogether the financial standing of the town is to-day sounder than at any time during the last three years. Rigid economy consistent with the best interests of the town is being observed. I have to thank all the members of the council for their unfailing co-operation and advice during what has been a most difficult and trying year and finally any suggestions for further betterment are cordially invited.

JAS. G. EWAN,

Mayor and Chairman of Finance Committee.

REPORT OF THE CHAIRMAN OF  
PUBLIC WORKS COMMITTEE  
OCT. 31st 1919

Your committee beg to report that owing to the great need for economy in every direction they have been unable to effect all the repairs needed to the sidewalks and crossings.

There has however been an expenditure of \$893.00 on such repairs as could not be avoided; roads, bridges, sidewalks and crossings. This is as far as your committee have felt like going. It is hoped that if the town continues to show the improvement maintained during the present year your committee will be able to make such repairs and do such new work as will meet the wishes of the ratepayers during the coming year.

JOS. MONTALBETTI,  
Chairman of Works and Property Committee.

REPORT OF WATERWORKS COMMITTEE OCT. 31st 1919

Your committee are pleased to report a marked improvement in the returns of this department during the current year. Revenue charges to consumers to Oct. 31.

Concluded on page 4

## “NEVER AGAIN” IS WELL PRESENTED

Local Amateur Talent is Seen to  
Good Advantage in the  
Comedy Farce

Mrs F. C. Graham of Coleman is to be highly congratulated upon the performance of “Never Again,” a musical comedy farce in three acts, which was presented in the Blairmore Opera House on Thursday Nov. 27th, under whose direction the farce was staged.

The artists who were all local people gave evidence of expert training which, coupled with talent enabled them to place “Never Again” before the public in a way that would put to shame many of the road shows which at times have visited The Grove's Nest Place. The performance was attended by a record crowd, who, judging by their applause, were highly pleased with the acting of the various artists.

The plot of the play centred around the home of a Mr. Fletcher, who, personated by Mr. Stanley Pizer. Mr. Fletcher was a grouchy and pious old stager while in his own home, but it appeared that he was not adverse to a flirtation and merry old times when out of sight of his family. One of his daughters proved to be his undoing as the young lady who was his companion on one of his excursions was later engaged by Mrs. Fletcher as a housemaid to succeed a maid who had been tyrannized over by Mr. Fletcher and to whom he had given an unjust reference upon the occasion of her dismissal. This maid while instructing the newly engaged maid as to her duties in the household discovered the friendly relations existing between that young lady and her tyrannical employer. An unwelcome son-in-law and a prospective son-in-law who were objected to by Mr. Fletcher also learned of his misdoings and together with the dismissed maid conspired to humiliate the hypocrite and thus force him to accept them as equals in the household and apologize to the housemaid for the unjust reference.

This trio succeeded in doing to the great discomfiture of Mr. Fletcher who was then obliged to do as they dictated.

Miss Charlotte Easton and Miss Dot Graham were excellent as the maids of the play while Charles Scott and Arthur Graham were irreproachable as the son-in-law and prospective son-in-law of Mr. Fletcher (Mr. Stanley Pizer).

The other members of the cast were equally good in their various characters, among them being Miss Louise Price as Mrs. Fletcher, Miss Leann Reid and Miss Elsa Disney as the two daughters of Mr. and Mrs. Fletcher, Mr. A. B. Carson as the family doctor, Luke Lindoe and Ross Powell as lovers of the two maids and E. E. Margerson as Serg't. O'Flynn, a police officer.

In all, the play proved to be most interesting and entertaining and in future any new venture by the same company will without doubt draw large crowds over and above those who to their own advantage, witnessed “Never Again.” The play was equally well presented to a crowded house in Coleman on Wednesday evening, Nov. 26th. The Coleman people are loud in their praise of the performance.

## CHURCH CORNER

### QUIET HOUR THOUGHTS

Social unrest—The world is crazed to the lid with it as well as those who think they are able to detect the causes and re-construct and patch up things by ushering in democracy. When will such people learn that the expressed will of the majority—democracy—never was right and never will be? It was the will of the majority among the ancient Israelites that they should forsake a theocratic government—direct government by God—under which they were enjoying the greatest temporal blessings, and in setting up King Saul these people opened up the way for all the troubles which have and do disturb the body politic. These will cease when Jesus returns in the visible body to assert His right to an earthly throne—not before. This job of re-construction is a Divine job.

If you do not agree with this idea, stop and think—Ask yourself what Democrat was a great reformer? Starting with Martin Luther and running them all over in our mind we find that every last one of the great reformers was in a very small minority, the very antithesis of democracy.

A few short months before the great war the apostles of "world peace by civilization," proclaimed with the certainty born of lack of knowledge that another great war was impossible. Scarcely were their mouths closed when the greatest and worst war of history broke loose. Man's method of bringing about world peace is thus demonstrated a failure. God's method is peace because of world-wide worship of Himself.

Men and their ways have been failures ever since the garden of Eden period and will continue so until the King of Peace returns in the flesh.

Mount Olivet. When Christ ascends the earthly throne of the house of David then shall we have world-wide peace.

Disobedience to Almighty God has spelled out war and trouble ever since the days of the ancient Israelites. Nation-wide obedience to God has always brought in its wake cessation from war and trouble.—This is a historical fact.

### Girls Mission Band

The senior girls class of the Union Church have organized a "Mission Band" and meet every Saturday at 8 p. m. at the residence of Mrs. W. A. Henderson. All young girls of Blairmore and vicinity are cordially invited.

The object of the Mission Band is for the study of missions and for practical missionary work.

1919 \$3903.00 as against \$2900.00 during the same period last year. Collections and other credits were \$3001.75 as against \$2175.00 for the same period of last year. Rates have been revised in many instances and there have been several new connections installed. It must be insisted on that where there are from connections consumers must pay their usual rate where they are still using the town water supply.

W. A. BERBE,  
Chairman of Waterworks Committee.

### REPORT OF THE HEALTH AND RELIEF COMMITTEE OCT. 31st 1919

Your committee have to report that under the widowed mothers allowance act they are paying to one family the sum of ten dollars monthly. There have been other calls under this act but upon investigation it was felt that no recommendation could be made for the time being.

There have been no other calls during the year and the committee are pleased to report the collection of \$500.00 on the accounts and several others are to be collected in the near future. Considerable cleaning up was done during the spring and the sanitary condition of the town and the general health of the community is satisfactory.

H. MCLEOD,  
Chairman of Health and Relief Committee.

### REPORT OF THE CHAIRMAN OF THE LICENSE AND POLICE COMMITTEE OCT. 31st, 1919

This department general speaking is in good shape. There have been eight convictions to date, resulting in fines amounting to \$236.00 and one case of imprisonment for one month. Revenue from licenses is \$735.50. Fines \$144.00 making a total revenue of \$1079.50 as against \$709.54

\$709.54.  
MICHEL ROSSE,  
Chairman License and Police Committee.

### REPORT OF CHAIRMAN OF FIRE AND LIGHT COMMITTEE OCT. 31st 1919

Your committee beg to report that beginning the year with a deficit of between \$3000.00 and \$4000.00 in this department, they had to take the matter in hand very seriously. They have considerably improved the situation but it is not yet on the satisfactory basis hoped for. Power supply has cost \$5612.00 and revenue charges to consumers amounted to \$5398.00 in which is included meter rentals, collections, street lighting and counter accounts are \$6570.00. While this is a decided improvement it is not enough and it has been decided to install a meter east of the West Canadian switch as a check on their registering. This and other steps intended, such as sealing meters and watching every avenue of suspected leakage will it is hoped put the department on a more satisfactory basis.

The fire in block three cost the town in wages and repairs to the pole line about \$400.00 and was a severe test on the fire equipment. This however remains in good condition. Several changes have been made in the street lighting and as conditions in the town improve so will this branch of the department keep pace.

J. A. McDONALD,  
Chairman of Fire and Light Committee.

## EDITORIAL NOTES

**HIGHWAY**  
As a means of remedying the present in-  
flating cost of living it  
**ROBBERY**  
has been suggested by  
some one in the U. S.  
that a lowering of the monetary stand-  
ard might prove effective. In other  
words the proposition would be to de-  
crease the amount of gold in the gold  
dollar, or make the silver dollar the  
standard, and in addition decrease the  
amount of silver in it.

This plan, as briefly outlined above,  
should take the price as a gigantic  
scheme for exploiting the savings of the  
country. In short, it would have high-  
way robbery built to a finish.

Under a recent date  
THE  
MAKING OF  
CITIZENS  
the New York Herald  
remarks editorially  
that: "More and  
more it is realized that  
the Bible is the only book in the world  
which can be applied to all classes, all  
conditions and all times." "In fact the  
Bible is found to be the best known guide  
for social progress, for political construc-  
tion and industrial peace." "Thus it is  
demonstrated that the Bible is the only  
book in existence that never grows out  
of date, never loses its significance or  
power and never becomes stale. It is the

bridge which may carry the nations of  
the world to safety."

When a paper such as the New York  
Herald expresses these wholesome senti-  
ments in its editorial columns it is high  
time the little undersnappers who swell  
up their pigeon chests and tell you that  
religion is only fit for women, children  
and fools, took a tumble to themselves.

On December 8th, the  
civic elections will take  
place in Blairmore.  
Three councillors and  
two school trustees  
are automatically retired according to  
municipal law and these vacancies must  
be filled. Blairmore is not so large but  
what most people know considerable of  
each other, both as to ability and up-  
rightness. On the 8th of December our  
citizens will no doubt have an opportu-  
nity to elect capable business men and  
gentlemen, or the reverse. Let all good  
citizens do a little hard thinking before  
they cast their ballots.

## SPECIOUS CONCLUSIONS

The Lethbridge Herald, in its  
issue of Dec. 1st argues editorially  
that the defeat of the extremists in  
the Winnipeg municipal elections  
show that the same public is pre-  
pared to back, or at least, allow,  
the private individual working for  
a private concern to strike when  
he feels like it, so long as the de-  
mands made are consistent with  
JUSTICE and do not trespass up-  
on the pledged obligations of the  
strikers.

We are not in sympathy with  
the O. B. U., or yet with strikers of  
any description; in what might be  
termed private enterprises or public  
utilities, but we do believe in  
meeting the difficulties of these  
stragglers with our eyes open  
and our mental equipment in full  
working order.

The Herald should know that  
the reason the Winnipeg electorate

voted as it did was because it got a  
taste of the inconvenience and  
even suffering which would be  
brought about by a solid body of  
striking workmen. In other words  
it was selfishness instead of love of  
justice which brought about defeat  
for the extremists—and rightly so—  
Bolsheviks are in a small min-  
ority, hence the result of the Win-  
nipeg elections.

This is not an altruistic age and  
the general public are not out en-  
masse upholding JUSTICE, unless  
they have felt the pinch.

When the Winnipeg electorate  
voted as it did it was because they  
had received a slap on the wrist,  
not that they were concerned with

principles one way or the other.

Editorials such as the one cited  
read well—to some—but they are  
not sound reasoning, nor do they  
cause people to think deeply.

Very few well informed men will  
care to deny that the present age is  
the most selfish of any in history.

If the Herald can tell us of some  
means by which love of justice can  
be inculcated in both the capital-  
ist and the working class to such  
a degree that it becomes the par-  
amount principle of these classes  
then it will have performed a real  
public service. The city editor at  
present contains an abundance of  
the brand of editorials noted—well  
worded but absolutely not

School of Agriculture, Claresholm.

# Shortage of Coal May Be Serious

Ottawa—Canadians can now look forward to a shortage of soft coal supplies for some time, in the opinion of C. A. Magrath, Dominion fuel controller, who has just returned from Washington.

In view of the breaking off of negotiations between the miners and operators there can be little hope of amelioration of the situation for some time.

Previous to receiving the announcement of the breaking off of negotiations, Mr. Magrath, who had been in conference with the fuel administrations of Ontario and Quebec, issued a statement calling attention to the gravity of the soft coal situation and urging the most rigid conservation policy. On being informed of the new development across the border, he called attention to the fact that he had anticipated that the award might not be acceptable to either miners or operators, and said that now the utmost care with our present supply would be necessary.

## Huns Still in Truculent Mood

Preacher Spoke of Returning to War and Fighting for Honor

Berlin.—The presence of General Ludendorff, former first quartermaster general in the imperial army, at the Potsdam garrison church, during a memorial service for Germans who fell in battle, was the occasion for a striking demonstration. General Ludendorff spoke for military training as an invigorating and moral education.

One of the congregation, dressed in a field-grey uniform, rose and exclaimed: "When the hour comes we will all follow you, general," whereupon the whole congregation stood and sang "Deutschland über Alles."

In the course of his sermon the preacher said:

"When the time comes we shall die bravely for our brothers and our home and not disgrace ourselves." At the close of the sermon, the preacher, standing on the tomb of Frederick the Great, summoned the congregation to unite in creating a monarchy which would be supported by the will of the people.

General Ludendorff was given an ovation as he left the building, and cheers also were raised for former Emperor William.

## To Reduce G. T. Service

Due to Coal Shortage, 90 Trains Will Be Cut Off in Ontario

Toronto.—Ninety trains are to be cut off the Grand Trunk railway service in Ontario as a result of the shortage in soft coal consequent of the strike in the United States. The G.T.R. company announces that the reduction will go into effect Nov. 30. There will be nine trains less than usual running daily, and the cut in the service takes effect.

# Visit of Prince Strengthens Bonds

Ottawa.—His Excellency the Governor-General has received the following message from His Royal Highness the Prince of Wales:

"H.M.S. Renown, Camperdown, N.S., Nov. 25, 1919:

"To all the men and women of Canada who served at the front in the great war:

"On sailing from the Dominion after my first visit, I wish to tell you what a pleasure it has been to see so many thousands of you during the last six months. On behalf of the King, I congratulate you on your splendid war services, and for myself I thank you for having received me, not only as the Prince of Wales, but as an old comrade in the field. I shall always look upon you as comrades, and I hope you will do the same for me. Au revoir.

(Signed) "EDWARD P."

Premier Borden has telegraphed as follows to His Majesty the King: "At the conclusion of the visit of His Royal Highness the Prince of Wales to the Dominion may I be permitted to convey to your Majesty and to the Queen my very warm congratulations upon its remarkable success, and especially upon the wonderful impression which the Prince has made upon all our people. His labors have been indefatigable and untiring, his tact and courtesy have been un-

## To Arraign 16,000

Communists

Caerny Is First to Be Tried and Pleads He Carried Out Orders

Budapest.—The trial of communists charged with crimes during the Bela Kun dictatorship has begun, Caerny, commander of the Lenin barracks, being the first of 16,000 to be arraigned.

Caerny pleaded that he had only performed his duty. He denied many charges of his execrations and recited several instances in which he claimed Bela Kun gave direct and explicit orders for murders. As the Hungarian Bar association refused to defend the accused, the court ordered lawyers present in the court room to defend them.

## First League Meet

To Be Called By the President of the United States

London.—Questioned regarding whose duty it would be to summon the first meeting of the assembly and the first meeting of the council of the League of Nations, in view of the fact of the American senate's refusal to ratify the Versailles treaty, Mr. Lloyd George said that Article 5 of the Peace Treaty stipulated that the President of the United States should summon the meeting. He added that he did not understand that this was in any way affected by the refusal of the United States senate to ratify the treaty.

Another inquiry, made by James Hooge, advanced radical and Scottish House member for Edinburgh, was whether Mr. Lloyd George gave any undertaking to President Wilson during the peace conference that Mr. Lloyd George would endeavor to settle the Irish question. This brought a direct negative reply.

Answering still another question, the Premier said that the effect of the United States senate's action with regard to the treaty provisions for publicity and other commissions in Germany would only be indirect.

It would be necessary for the other powers to find a larger quota of representatives for these commissions. The Premier said that the Anglo-French-United States treaty, providing for the League of Nations, in case of Wanton attack, was contingent upon ratification by the United States senate, but that the United States refusal to ratify, the Peace Treaty would not necessarily affect the tripartite treaty, provided the United States ratified the tripartite part separately.

## A Wise Boss

Employer (to clerk): If that bore, Smithers, comes in, tell him I'm out and don't be working, or he'll know you're lying.

falling and his natural charm of manner has made an irresistible appeal to all our people and has won for him a place in their hearts which will always endure. He has shown a thorough comprehension of the spirit and aspirations of the Canadian people, and there has been a universal appreciation of the excellent speeches which he has delivered in all our provinces from the Atlantic to Pacific. The visit has had a distinctly strengthening effect and must serve to strengthen the ties which unite Canada to the rest of the empire."

The following reply was received: "Buckingham Palace, London, Nov. 26, 1919:

"Sir Robert Borden.—The Queen and I have received with supreme gratification your kind message on the conclusion of our son's visit to Canada. We heartily thank you for the generous terms in which you speak of all that he has accomplished during the happy months spent by him in the Dominion, and we are proud that it is to his personality that you so largely attribute the success that has crowned his efforts. I earnestly believe that this renewed association between my family and the people of Canada will strengthen that unity of empire upon which, please God, a great and glorious future may be assured.

(Signed) "GEORGE R.I."

## Cheques Totalling \$4,000 Forged

During Crime Perpetrated on the Calgary Branch of the Standard Bank

Calgary.—One of the most daring cheque forgeries in the history of the city was perpetrated on the local branch of the Standard Bank here, when a man, who said he was G. Whitaker, passed cheques totalling \$4,000 and drawn on the branch at Fort Saskatchewan, Alta. He represented that he wanted the money for stock deals. The cheques were stamped "accepted," but apparently were not initialed in the stamp mark. This passed unnoticed for a time, when the teller became suspicious. The bank management communicated with Fort Saskatchewan, and discovered the forgery. The police have been unable as yet to trace the man.

## A Fine Plan

Lord Leverhulme Urges Sweating of Machinery Instead of the Employees

New York.—Sweating the machine, not the man, is the economic principle which Lord Leverhulme, the great British manufacturer, justifies the six-hour day for workmen and the twelve-hour day for machinery. This schedule his firm has determined to introduce in their factories in Great Britain, Canada and the United States, hoping thereby to profit their workmen and themselves.

Lord Leverhulme, who arrived here Tuesday on the Mauretania, comes to conduct a little missionary work in favor of the introduction in this country of the plan, which he declares will prove economically advantageous and profitable in any industry in which the overhead charges for plant and equipment equal or exceed the wage bill.

Describing the main features of the plan, as well as of the long established system of "co-partnership" or profit sharing, in his several soap factories, Baron Leverhulme pointed out that the scheme for hours must not be confused with a flat six-hour day, but consisted in employing his working forces, men and women, in two shifts, each working on a 36-hour week basis, while the machinery is kept going the full twelve hours a day.

The plan he delivered was to get the greatest possible production out of the machinery, the expensive element in soap production, which is granting the working force a shorter day and a greater opportunity for recreation and self-improvement.

## Bumper World Crops

Corn, Potatoes, Barley and Sugar Beets Are Above the Average

Washington.—Bumper world crops of corn, potatoes, barley, sugar beets and rough rice for this year are shown in estimates compiled by the International Institute of Agriculture at Rome, made public by the Department of Agriculture.

The production of wheat, oats and flax seed, however, shows a decrease from the average for the five years ended in 1917.

Wheat production in fourteen countries, excepting the central powers, will reach 2,040,000,000 bushels, 96.5 per cent. of the five-year average. Corn will amount to 3,136,190,000 bushels, 148.8 per cent. greater than the crop produced last year and 44 per cent. greater than that produced for the last five years.

## The Victory Loan

Ottawa.—Sir Henry Drayton, minister of finance, when questioned in regard to the allotment of the Victory Loan subscriptions, said that he would wait until the figures are all in before making a statement. He intimated that the government is in need of money to carry on the business of the country. A large percentage of the subscriptions will be accepted.

Two Deaths from Sleeping Sickness

Winnipeg.—Sleeping sickness has claimed two more victims in Winnipeg, making the total deaths from this disease since the first appearance eight in all.

Two more cases were reported to the city health authorities, bringing the number of cases reported to 32.

To Equip Seized Hun Steamers

New York.—More than \$7,000,000 will be spent in special equipment for the seven former German passenger liners recently enrolled by the United States shipping board for a fast passenger and mail service between the United States and South America.

"Funny how some fellows get generous when they are drunk." "Yes, and others get tight."

## Allotment of Coal For Canada

Emergency Requirements Will Be Met With Shipments From the U.S.

Washington.—Arrangements were completed here between the Canadian war mission in Washington and the central fuel committee of the United States, under which there will be an allotment of bituminous coal to Canada to meet emergency requirements. The procedure in securing supplies will be as follows:

"Preferred industries in Canada must have their applications: substantiated by C. A. Magrath, Ottawa, afterwards the applications will be forwarded to the Canadian war mission at Washington, and by this mission in the central fuel committee."

## G.T. Agreement Ready Soon

Will Be Taken to England By Sir Alfred Smithers When Completed

Ottawa.—The agreement which is being drawn up for submission to the Grand Trunk shareholders, and which is being used by the bill for the acquisition of the Grand Trunk system put through the House last session, will probably be completed within a few days. It will then go to the cabinet and on being approved by that body will be handed to Sir Alfred Smithers, who will take it with him to England.

The agreement, it is said, will contain little that is new. It is in the nature of a compact for the purpose of implementing the bill which parliament passed last session, which covered the important point of the transaction.

The agreement is more specific, dealing with details of the plan broadly outlined in the bill. Until it is sealed by the Grand Trunk shareholders, there will be no appointments made either to the board of arbitration or to the board of management. The government, however, will continue preparing the case which it will place before the arbitrators, and which will require an exhaustive investigation into the condition of the road, and an audit of the books of the company. There is as yet no indication of who will be asked to act for the government in counsel during the arbitration proceedings. The return of the Prime Minister may have the effect of speeding up the choice of the government counsel.

## Bolsheviks Will Settle Debts

New York.—The Bolsheviks do not intend to repudiate \$100,000,000 worth of bonds issued by the imperial and provisional governments of Russia, as reported, according to Ludwig C. A. Martov, self-styled soviet ambassador to the United States. Martov testified his government had sent him official authorization to arrange for settlement of outstanding bonds, a large portion of which were sold in this country.

## Austrian Nobles as Hostages

Paris.—A dispatch has reached the Foreign Office from Vienna, by way of Basel, to the effect that the Russian minister for foreign affairs intends to hold the Austrian nobles and subjects in Russia as hostages for the security of Bela Kun, the former Hungarian communist leader, and the members of his government.

## First Canadian in France

Kingston.—Among those who were initiated a few days ago into the Army and Navy Veterans was Capt. Law, C.M.G., who was the first Canadian to set foot in France after Canada had entered the war. Capt. Law landed in France in November, 1914.

## Egyptian Situation Improved

London.—The imposition of stricter regulations in Egypt has resulted in an improvement in the tone of the native press, and the situation generally, according to a dispatch from Cairo under last Friday's date. Demonstrations have been banned after the midday prayer, the dispatch adds.

## Soviet Peace Feelers

London.—A Moscow wireless dispatch received here quotes the Pravda as declaring that the Soviet government is willing to negotiate a peace with the entente and the imperialists, but only on condition that the entente shall undertake not to support the counter-revolutionaries.

## Cannot Part With Title

London.—A bill introduced in the House of Commons, under which Viscount Astor would have been able to give up his title, inherited from his father, the late Viscount (William Waldorf) Astor, was defeated by a vote of 169 to 56.

W. N. U. 1292

# No Prohibition Likely For Britain

## Italy Will Observe

Conference Decision

To Carry Out Request of Allies With Regard to Dalmatia

Basel.—A dispatch from Belgrade, dated November 25, has been received by the Liabach (Austria) correspondence bureau, stating that the Italian government has informed the government of Yugoslavia that Italy would observe the decision reached by the Paris peace conference with regard to the Dalmatian question and would itself present any attempt in the direction of Spalato by Gabriele d'Annunzio.

## Trappers Predict

Early Spring

Rabbits Are Still Brown and Fur Trapped Is Not Prime

Winnipeg.—Coming into the frigid atmosphere of this city, travellers from the Peace River district are talking of the break-up of the winter there and early plowing, too. They say that ice on the river has broken, although it has been so thick that teams had been crossing for ten days, and old-timers predict the river will soon be clear. Trappers talk there of an open or a very late winter, drawing their conclusions from the fact that rabbits are still brown, and that fur trapped to date is not prime.

## Credit Churchill With Tank

Being Servant of the State, Minister Is Not Given Financial Reward

London.—"It was primarily due to the receptivity, courage and driving force of Winston Spencer Churchill, that the general idea to use such an instrument of warfare as the tank was converted into practical shape," was the statement made in the report issued here by the committee which investigated the great length the numerous rival claims to credit for inventing the tank. But it was said in the report that as the minister was considered a servant of the state he is not entitled to any reward.

The report then deals with a number of men who made valuable contributions toward perfecting the tank, awarding some of them sums of \$2,500 or \$5,000 each, the principal award, amounting to \$70,000, being divided.

## 10,000 Tons of Sugar Arrives

Montreal.—With the arrival in port of two government steamers loaded with Cuban sugar, and the expected arrival at the end of the week of a third sugar cargo, making in all a total of 10,000 tons to arrive in Montreal, the sugar shortage is greatly relieved.

Willie: Pa, what's a jack-of-all-trades?

Papa: Generally a fellow who can produce anything except results.

# Radical Reforms Are Forecast by Drury

## To Make Good Citizens

Every Canadian Child Must Have Rights of School

Winnipeg.—The standard that this province has set is that the child of every Canadian citizen, no matter what his nationality or the country from which he has come, shall have the priceless privilege of getting a public school education, with the object of enabling that child to develop into a good Canadian citizen.

This was the statement of Premier T. C. Norris at the fourth annual convention of the Ukrainian citizens of Canada, which was held here.

Premier Norris said it would be a fatal to the Canadian, and also to the Ukrainian, people to be divided regarding the importance of developing the highest kind of citizenship in Canada. It was the duty of the Manitoba government and all other governments in the Dominion to make it possible for every child in the country to become a Canadian citizen of the right type.

The Manitoba department of education required its duty in this connection.

Once in a while an actress makes good for her press agent.

London.—The imminence of the government bill concerning the drink trade produces a number of press comments here. The Daily News, which at once time refused liquor advertisements and declined to print the racing news, but has since modified this attitude, thinks the proposals either of the trade itself or of the prohibitionists will never command popular approval. It suggests that the 1915 report showing state purchase to be both practicable and desirable, should be taken from pigeon holes.

"What we want is a sufficient supply of wholesome liquor at reasonable hours for purchasing and suitable prices for consumption," declares the Express, which further indicates approval of reform on lines already carried out in the Carlsbad district.

"The Daily Mail says 'the new scheme clearly will contain some "Pussyfoot" Johnson. The government will urge a compromise pleasing for the prohibitionists by imposing further restrictions, containing the trade by making public houses more comfortable and more remunerative than at present."

"What the country wants," adds the Mail, "is a better licensing system, giving better public house accommodation which a decent man can own credibly and decent people use without loss of self-respect."

## Living in Fool's Paradise

Ex-Kaiser, Wilhelm Does Not Expect to Be Extradited

Amsterdam.—The Telegram, quoting an authoritative source, says both the Netherlands government and former Emperor Wilhelm of Germany are still confident that nothing will come of the report that there will be demand for the extradition of the one-time emperor.

The newspaper adds that former Crown Prince Frederick William, who it says, has less to fear from extradition than his father, takes the matter more seriously. The Telegram's authority says that the breach between the former emperor and his son, while it has not yet been healed, is less bitter, the son having yielded somewhat to his father because of the wishes of his mother.

## Baltic Fighting Stopped

Hostilities Between Lithuanians and Germans at an End

Copenhagen.—The inter-allied Baltic commission has stopped hostilities between the Lithuanians and the Germans in Russia, and has directed the combatants to retire to the demarcation line of October 30, according to advices to the Lithuanian press bureau, from Kovno.

A man wastes more time during a six months' courtship than he does all the rest of his life waiting for street cars.

**Lakes Will be Rivers**

37,000 Years Hence, Lake Erie Will Be Pouring Into St. Lawrence

The 20-mile strip from Buffalo to Niagara Falls will be eaten away and Lake Erie will rush through the St. Lawrence River into the Atlantic Ocean, leaving only rivers where Lakes Erie and Michigan now are, according to Professor James B. MacElwaine, professor of the geology and physics department of St. Louis university. But it won't be for 37,000 years.

The Great Lakes region is draining. This will bring about a warping of the lakes through Chicago river and Maumee, he said.

**With the Fingers! Says Corns Lift Out Without Any Pain**

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of frezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quartet of **FREEZONS** at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

Zeal is very blind, or badly regulated when it "creaches upon the rights of others."

The trouble with most handsome women is that they think that all that is necessary.

**YOUTH and AGE**

**Farm Superstitions Are Valuable**

Helpful Information Discovered By Keenly Observant Persons

The problem of making agricultural superstitions into scientific data is being studied by experts of the U.S. Department of Agriculture, who declare that many old maxims handed down from father to son for generations are not really superstitions at all, but helpful information discovered by keenly observant persons.

They declare that there is a better time for every farm and garden operation, and that some trees or shrub or plant indicates that time more accurately than all the scientific instruments can register it. It is those signs which were noted by the pioneers who laid the foundations of this country and recorded in the simplest sayings handed down to posterity. Soon they will be dignified with the scientific name of phenology, which is the science of phenomena.

**POOR, THIN BLOOD BRINGS INDIGESTION**

Make the Blood Rich and Red By Using Dr. Williams' Pink Pills

Thin-blooded people generally have stomach trouble. They seldom recognize the fact that thin blood is the cause of indigestion, but it is. Thin blood, weak, watery blood, is one of the most common causes of stomach trouble. The glands that furnish the digestive fluids are weakened in their activity, the stomach muscles are weakened, and there is a loss of nerve force. In this state nothing will more quickly restore appetite, digestion and a normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and thus restoring the strength of the stomach, stimulates the muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon a relief of the blood improving pills is felt throughout the whole system. You find that what you eat does not digest you, and that you are daily growing stronger and more vigorous.

Mr. J. J. Murray, Regent street, Toronto, writes testimony to the value of Dr. Williams' Pink Pills in cases of this kind. He says: "During the latter part of 1918 I was a sick man. My stomach seemed simply down and out. I had no desire for food, and when I ate it distressed me. I was pale, did not sleep well, naturally got up in the morning feeling grouchy. My wife was worried by my condition and urged me to try Dr. Williams' Pink Pills, reminding me of the good they had done for her daughter when she was in a somewhat similar condition. I decided to follow her advice, and I am now as good as cured. I have got my appetite back, sleep soundly at night, and feel strong and am so gratified with what the pills have done for me that I strongly advise their use for all pale, sick people."

You can get Dr. Williams' Pink Pills through any dealer in medicines, or by mail at 50 cents a box, or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

**Perfects Baby Airplane**

A 130-pound airplane is France's latest contribution to aerial progress. A French engineer named Archer has taken out patent for the baby machine, which is electrically propelled with a maximum speed of 155 miles an hour and capable of carrying two passengers. Archer expects the machine to revolutionize communication between cities. Archer is inventor of the French army's "baby cannon."

**Raising Princess Sophia**

The raising of the wreck of the Princess Sophia, which sank in Alaskan waters 13 months ago with heavy loss of life, was not to be attempted before next spring. It is stated by J. S. Byron, who has just returned from Juneau. The equipment that has been collected for the big job will be in shelter at Bridge's Cove, three miles from Vanderbilt Reef until next May, when it is planned to proceed with the work. Bad weather and intense cold made it impossible to proceed this year.

**Europe Facing Darkest Winter**

Problem Too Vast for Private Enterprise or Government

A "city of mediocrities," with most ration of three ounces a week, and this unavailable; with milk for babies only; with eggs, beans, sugar, coffee, shoes and clothing exhausted; with hospitals closing one after another, so that the death rate must rise even higher with 75 per cent. of the families living in one or two rooms—such is the picture Burgenstein Reumann, of Vienna, paints of that once gay capital.

It is impossible for Americans to realize the literal truth of such a picture; harder still to grasp that this is but a sample of conditions in almost every capital or industrial city in the vast war zone. Vienna is little worse off than Budapest or Warsaw; it is probably better off than Petrograd. Wherever large populations have been in the past dependent upon industries that are ruined, or upon transportation that has broken down, the tale of sorrow and suffering can be told in Herr Reumann's very words.

Liudendorff's recital has given some hint of how ghastly the territory in Poland and elsewhere was ravaged by retreating armies, for reasons of "military necessity." No foe marched through Vienna or into Petrograd. The stripping of industry and transportation by air for war was enough to wreck ruin which calls for universal pity.

Help there must be if more human beings are not to perish from cold and hunger than the war has slain.

The problem is too vast for private enterprise or government. It requires, while debate drags on, the concerted action of the governments of the world if Europe is not to endure the darkest winter in all its history.—From the New York World.

**Exhausted from Asthma.**—Many who read these words know the terrible drain upon health and strength which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will surely stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

**The World's Shipbuilder.**—A recent Lloyd's report shows that Great Britain is building practically one-half the enormous tonnage under construction in the world's shipyards, does not look as if the war had deprived the Mother Country of its place as the world's shipbuilder.

War gave a tremendous impetus to shipbuilding in many countries, particularly in the United States and Italy, but without substantial government backing these countries seem unlikely to be formidable competitors of the British builders.

**Miller's Worm Powder** will eradicate the worm evil that haunts so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

**Horse Meat For Europe**

Horses from Southern Alberta to Be Canned for Shipment to Europe

A trial shipment of horse meat is being made from Alberta to Europe. An announcement to this effect was made by H. B. Arkell, Livestock Commissioner of the Dominion Government, at the recent meeting of the Western Livestock Association at Victoria, British Columbia.

A few selected horses from Southern Alberta farms are to be killed and their meat boned and canned for shipment to Europe by a private packing concern, according to Mr. Arkell. It is to be merely by way of experiment, and upon the results both here and at the other end will depend whether or not a permanent trade between Alberta and the horse-raising markets of the old world will be developed.

Saskatchewan farmers are preparing to send representatives to the exhibit of the International Hay and Grain Show, Chicago, this month. They hope to repeat the September successes at the International Soil Products Exposition, when they won first prize sweepstakes for wheat and oats, and several other prizes for grains, grasses and vegetables.

**HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE**

Miss Eva P. Yatemann, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was terribly ill with heart, nervous and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever I was, that it was not safe to leave me at home at any time. At last I decided to resort to prescription medicines and took several different kinds, but seemed to receive but little benefit from any of them. One day, noticing the advertisement of 'Milburn's Heart and Nerve Pills' I decided to try them, and before I had taken two boxes I could see they were helping me. I have taken about ten boxes and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Canadian Watch-Making School**

The first watch-making school in Canada has been established in Montreal to teach the trade to returned soldiers. Each man who becomes proficient is assured of immediate employment, as there is a great scarcity of watchmakers in the Dominion at the present time.

**Minard's Liniment Cures Garget in Cows.**

Almost every man has the mistaken idea that he is essential to the workings of the universe.

**DOUBLE BEAUTY OF YOUR HAIR**

"Danderine" creates mass of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then rub a soft cloth with the "Danderine" and draw it through your hair, taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and so easy to do up. All dust, dirt and excessive oil is removed. Let Danderine put more life, color, vigor, and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful.

**To Deal With the Kaiser**

Trial of Former Emperor Will Be Opened in London Early in the New Year

The British Government expects the trial of former Emperor William of Germany to begin in London early in the new year, and is completing necessary arrangements, says the Mail, which adds that as soon as the allies have ratified the peace treaty a united request for the surrender of the erstwhile emperor will be presented to Holland.

"There is no room for doubt that the request will be complied with," the newspaper adds. Ratification of the treaty is confidently expected in a few weeks.

## Of Local and General Interest

Mr. Hadral, of Ferus, was in Blairmore over the week end.

The Canadian army in England at the present time numbers only fifteen hundred men.

Lumber prices have taken another jump and are now higher than at any time during the war.

Nic. Folini had his toes smashed at the Green Hill mine on Saturday of last week, a dump car running over his feet.

Mr. J. A. Turcotte and Mr. C. J. Sehl, both of Lethbridge, were in Blairmore Sunday in the interest of the K. C. Hat Association.

Mr. J. M. Windsor and family left Blairmore on Friday Nov. 28th, for Boiesvain, Manitoba, the scene of his future activities.

Mr. R. J. Gresham returned to work on Tuesday last, after a few days spent in bed with what it is thought was a slight touch of the flu.

Mr. M. G. Rhynas will represent the Crow's Nest Pass branch of the G. W. V. A. at the provincial convention to be held at Edmonton on December 9th.

Don't forget to keep Dec. 10th open. This is the date of the sale of work to be held in the Catholic school, Coleman. Come and make your choice of Xmas gifts on that date.

Bills are out announcing an entertainment and presentation in the Coleman Opera House on the evening of December 17th, under the auspices of the G. W. Next of Kin Association.

Emile Rose is opening up a cigar store in the T. Edle block.

Rev W. B. Day, of Macleod, was visiting in Blairmore on Wednesday last.

Mr. J. E. Gillis spent several days in Macleod this week at ending the Supreme Court sittings.

Mr. L. H. Putnam spent several days in Macleod this week where he was in attendance on the Supreme Court.

Mr. John Handley, son of Mr. J. Handley, who moved to Creston last year, returned to Blairmore on Tuesday evening.

There are three qualifications essential in every municipal officer, namely: public spiritedness, substantial property ownership and business ability.

It is hardly sportsmanlike to make it public, but "Elizabeth" has gone back on J. P., the result being that the genial manager for Pat Burns is now walking, just like all the common folk.

A Lethbridge retail shoe dealer says he cannot possibly do business on a gross profit of 33 per cent. It would be interesting to know what make of an automobile he drives so that our poor dubs who wear the shoes may avoid it.

Recent letters to hand from Vancouver, Island state that the weather there is very peculiar this winter, one day being like summer and the next almost like prairie weather, followed by rain and sleet. There are many worse climates than Alberta.

Joseph H. Hume Cook, minister of the navy, in the course of a speech delivered in Albury, Australia on Nov. 27th, said that while he most wholeheartedly supported the League of Nations he thought Great Britain should keep her powder dry.

A Vulcan Youngster 16 years of age recently broke into the C. P. R. depot at that point and after writing himself out a ticket for Lethbridge, plugged the telegraph switches and boarded the express, to be caught in Lethbridge and receive a reformatory sentence.

The F. M. Thompson Company beg to announce to their many patrons and friends that as they are moving to their new store on Wednesday afternoon and Thursday, they will be closed during that time, but will be open for business again on Friday morning, December 12th.

A red and white cow with calf at foot, cow branded with blank strand on eight ribs, right eye out, appearing to be a general milch cow, can be had by the owner proving property at the ranch of the undersigned and paying for feed and this advertisement.—Jack Eddy, Beaver mines.

W. J. Bartlett, writes under date of Nov 27th from Detroit saying that the weather there is very cold and stormy, with severe wind storms prevailing in the Great Lakes region. He informs us that his train was shunted off the main line twice going east on account of snow storms and wrecks. Editor Bartlett states that Detroit is a great city, its population having increased in the last twelve months from 800,000 to over one million.

The G. W. V. A. Masquerade Ball on Wednesday evening last was a decided success, an exceptionally large crowd being in attendance. Following are the prize winners: First-class gent, Rene Gresham; representing Lord Nelson; First-class lady, Miss Shad, representing an Indian Girl; Best Comic Gent, P. McKewen, as Uncle Sam; Best Comic Lady, Lillian Evans representing an old lady.

Edmonton is to have a big competitive musical festival on December 8th, 1919. Mrs. Geo. Bond is assisting at the local school during the absence of Miss Kennedy.

Joseph Flavella has retired from the Davies company, his associates buying the stock.

Mr. Young, president of the North-West Insurance Co. was in town a few days this week.

Eighty thousand disabled Imperial soldiers are to be settled in British Columbia. Many of these are suffering from chest and lung troubles.

Mr. C. F. Adams, of Calgary, was in town Thursday, Dec. 4th, looking over the Blairmore Brewery in the interests of Calgary capital.

Mr. J. Charbonner, general manager of the West Canadian Collieries, Ltd., is at present travelling in Europe, he having left during the month of October, after travelling through the U. S.

The most inhuman act we ever heard of is that of the Board of Commerce in limiting the return of bacon to 25 per cent. profits. The poor fellows may have to go to work for a living.

Mrs. A. McLeod and Earle accompanied her son Donald to Calgary on Monday last, where he was removed from the Frank Sanatorium. Mrs. McLeod succeeded in getting her son into the Holy Cross hospital, where it is hoped he will receive beneficial treatment.

Mr. H. G. Benson is busy moving into his new and commodious quarters in the new Thompson block. See his advertisement in another column.

Early this week Blairmore got a touch of 25 below zero followed by a decided moderation, and at present the indications are very warm weather again.

Miss Grickschanks, who has been visiting with Mr. and Mrs. W. A. Henderson for the past few weeks, returned to her home in Medicine Hat on Thursday of this week.

Don't forget to keep Friday, Dec. 12th open for the performance in the Opera House. This will be the date of the appearance of Davis the Magician, one of the Lyceum attractions, and said to be a really first-class entertainer.

A case came up on Wednesday afternoon last before Justice Pinkney at the Town Office in which Mrs. Vincenzo Petrone charged Luigi Denartoris with causing a disturbance at the boot-repairing shop and also residence of her husband V. Petrone. It appeared by the evidence that Denartoris who is also a boot-repairer by trade, went to the shop of his business rival to pay a friendly call but evidently, Mrs. Petrone objected to his presence there, hence the disturbance. L. H. Putnam appeared for Denartoris. The Justice after hearing all the evidence dismissed the case owing to the lack of evidence to prove that Denartoris visited the shop for the purpose of causing a disturbance.

Don't worry about the Editor. He has a charter from the Dominion, to act as doorman for the community. He will get the paper out somehow and stand up for you when you run for office and lie about your big-footed son when he gets a four dollar a week job and weep over your shrivelled soul when it is released from your grasping body and smile at your wife's second marriage. Don't worry about the Editor, he'll get along even if he does have to use a can opener to get the news out of you. Be sure not to worry about the editor even to the extent of paying your subscription overdue for the past ten years.

### Notice

Bellevue Alberta, December 4th, 1919. Notice is hereby given that Florence, wife of James Maguire, having left my bed and board, I will not be responsible for any debts she may contract. Signed: JAMES MAGUIRE. Dec 4-41 Bellevue, Alberta.
